About Fundraising

As a football coach, I've done fundraising by selling candy, soap, candles, hats, shirts etc. What a hassle. But we raised money for some nice extra things for our program. Some of you may have to fund raise just for survival. Here's what I didn't like about selling things:

1. 60-70% of the money goes to the manufacturer. Most people wanted to help the team, not the soap or candy company.
2. Teachers and administrators were invariably bugged about buying a product.
3. Collecting money.
4. Most projects netted only \$800.00 to \$1500.00.
5. On one candy project, the team ate a lot of the profits.

Man-Is Promotions has solved these problems through a Jogerama and a computerized system which is revolutionizing the fundraising industry. Many hassles are virtually eliminated. If you need money for your athletic program, school and/or like the idea of bringing your team to the BFS Summer Camp, call Toll Free or write for free information. Please state your Name, School, Address, Phone, Size of School and How Much You Want To Raise.
