SAFETY SQUAT

IT BEEPS AT PARALLEL

NO MORE GUESSWORK
NO MORE ARGUMENTS
LESS SUPERVISION REQUIRED

When the thigh reaches parallel, the Safety Squat will BEEP! It eliminates all guess work in judging proper depth. Great motivational device and coaching aid!

Some athletes don't go down far enough. They think they are, but they lean forward at the waist. They might even argue. Now, they can't! It will aid in their form. Also for those who go too low, usually by going down too fast, the Safety Squat will BEEP at just the right time.

We highly recommend the Safety Squat! You should try at least one. Then, you'll want to get one or two for each Squat Station!

FITS EASILY AROUND ANY THIGH
